

Toki Lil (*Talk Good*) is a micro-language/constructed language inspired by Toki Pona, and Ta Lo Ne. It was designed to simplify language where words reflect off of feelings, and emotions. Its word structure is unusually simple (Example: *I am have a good day* ---> *Mi lil dil ul* (**Literally; I good day**)). There is a tiny amount of “official words” but based on existing grammar, you could easily make new words (Example; Long Wood ---> *Oi ru lu belo*; Literally; Long square brown).

Basic Words

He/She/It	'i
You/Them	'io/'il
