Hi! Thanks for downloading the Quiet Book Template from jocelynandjason.blogspot.com.

A few important notes:

- All of the detachable pieces in this quiet book (such as the apples, the dinosaur spots and spines, the potato head accessories, etc.) are double layered. Rather than cutting the two copies of the shape out of the felt and then sewing them together, I found it easier to cut one copy out and sew it directly to the big sheet of felt. I then cut that double-layered piece out of the sheet of felt.
- These templates are for personal use only. That means you cannot sell them or use them to create items for sale.
- The pictures of the quiet book at jocelynandjason.blogspot.com might be helpful for you to look at as you create this book.
- Check out quietbookblog.blogspot.com if you'd like to see other people's quiet books or submit your own to be featured!
