☒ SOLAR COOKSTOVE PROJECTS

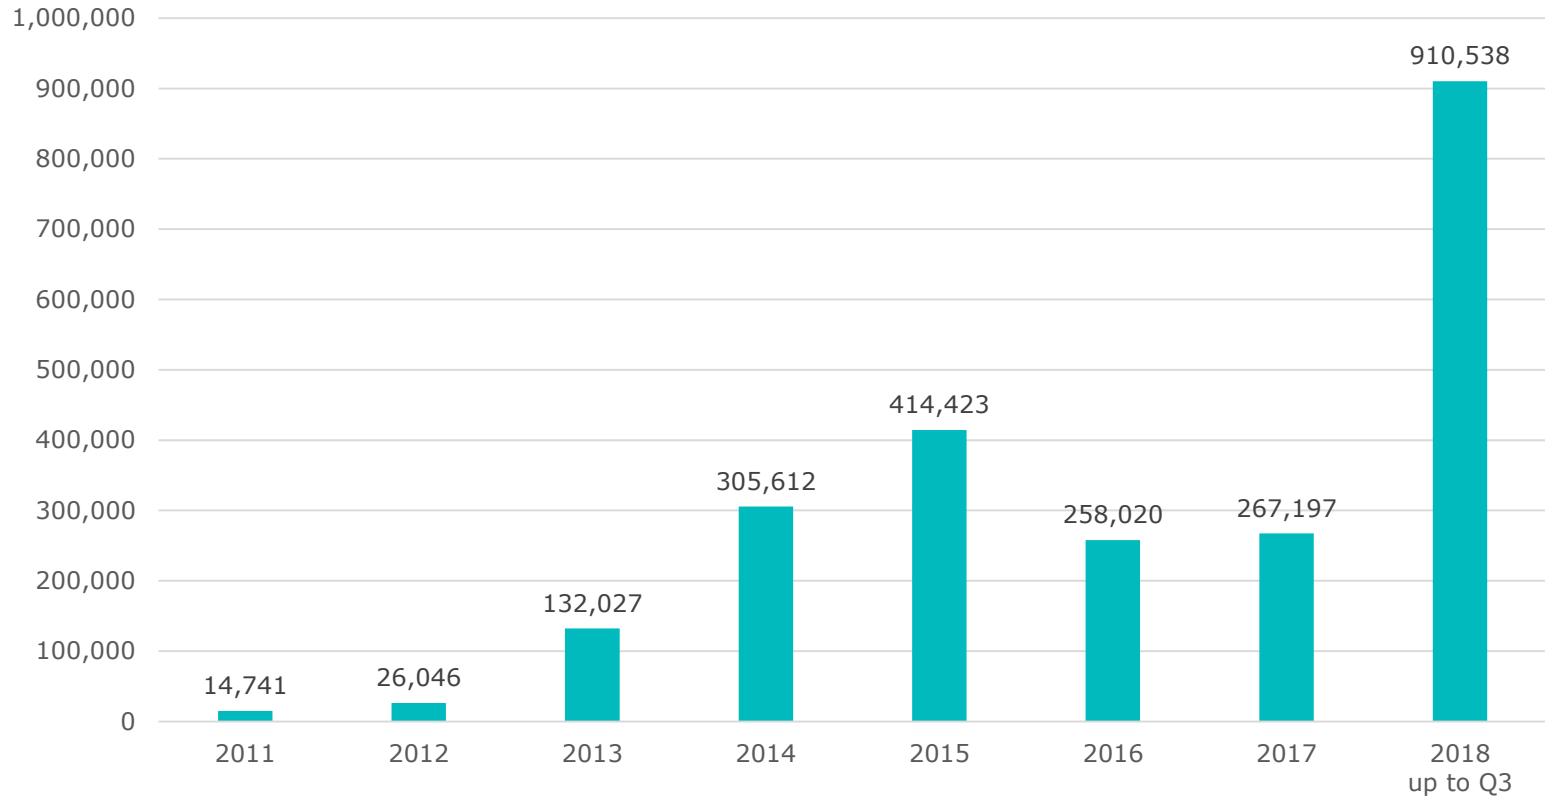

- **17** solar cookstove projects
- Over **2.3** million tonnes of credits issued from **14** projects based in **6** different countries
 - **1.4** million VERs
 - **0.9** million GS CERs

Highest issuances in:

- **Madagascar** (46%)
- **China** (42%)
- Opportunity for

YEAR-ON-YEAR SOLAR COOKSTOVE ISSUANCES

CHALLENGES AND OPPORTUNITIES

- 100% efficient
- Zero fuel costs
- Useful when wood fuel is scarce or hard to collect – e.g. high altitude areas/desert areas
- Tends not to displace baseline fuels completely
- Fewer VERs than 'traditional' improved cookstoves
- May need additional engagement to encourage adoption + skills to maintain
