SOLAR SPECIES
INdIAN COUSINE'S
Traditional Cooking Utensils

- Using a copper cup is very healthy. It purifies blood. It removes toxins from the body. It is good for skin and heart. It reduces Kapha.
- It is believed that to prevent asthma, one should drink water which has been kept overnight in a copper vessel. This water, with traces of copper in it, is believed to change one’s constitutional tendency to get respiratory problems.
