Meanwhile, Nintendo's official spokesman on the matter of Miiverse not moving on to the Switch had this to say. The last thing Salvatore said during his statement, prior to this droll assessment of market realities, was “Hurray for money!” while hiding behind children.

Yeah, I got bored about three quarters of the way through Devil May Cry and decided to try for the impossible dream of a perfect

nine on ye olde Splish/Kaboom game. DMC isn't terrible. It's just a little underwhelming compared to God of War and Bayonetta, which wouldn't exist w/out DMC. Hence my desire to play the series ... which I will complete. Just not promptly ...

Slight change of plans. My LoZ timeline playthrough will commence tomorrow night after work. A golden wiimote I've never used is charging now.

Ooh, intense ... seriously, if I ever even improved from 11 to 10 for a personal best I'd be amazed. Aside from miraculous luck in opening up the battleship board, you need a very rare layout to not have to repeat that shot in the dark. Like here, I could have just finished any of the three Big Octos. If I have the dream layout, I've just polished off the smallest.

\*polished\* \*Hooray\* and possibly \*sploosh\* w/ a goofy accent ...

Anyway, since I'm the type of monkey who would rather hope for the ideal layout than stab off into the board, I'll make these two moves every time, and likely never see a 10 from that scenario. Fortunately, I'm not dedicated to ever doing so. When I'm almost sleepy, I show up for the good cheer Sal's act brings me.

No Miiverse on the Switch is going to be a bummer... :/

Good luck! I wish you many Kabooms!

I'd better make sure to not go against you if there's ever a Battleship game on the Switch. I might not stand a chance...

I lack the patience to toy around with luck-based games. I hardly stick around for the piece of heart.

Notifs! Maybe an aNDroid's presence will give good luck...?

To be fair, there is a bit of skill as well. With the targets being rigid and a specific size, one can somewhat deduce where they are. Not that I recall being all that good at Battleship specifically...

Humans like Humantorch are humorous to me.

Please don't mistake this for a post that's actually about me trying to outdo 11. It was more just farcical sadness concerning our hangout being left behind and a thing I do when I'm not quite tired enough to sleep, but too tired to do much else.

@Meagan: Naw sis, I expect we'll be able to Miiverse for another two years. Just not from a Switch ...

+ Yeah!

Ah, I see. It's just my friends are getting alternatives when the Switch

launches. I already got one (the bird).

I remember my cousins used to have an electronic Battleship game when I visited their house and, at age seven or so, I would be enthralled at the little readouts from the narrator. I wasn't too good, though, I think.

**Joshua** 01/17/2017 1:30 PM

I actually recall having one as well. I believe I liked the sound effects at the time, but calling out the coordinates is ultimately easier than using buttons. Not that I likely thought of that at the time...
